INTRODUCTION

7 Cite fancy references (?). As demonstrated in ?, citations can also be automatically reference. Multiple
8 references are separated by semicolons (??).

RESULTS

SUBSECTION 1

9 You can use R chunks directly to plot graphs.

```
require("ggplot2")  
x <- 0:100  
set.seed(999)  
y <- 2 * (x + rnorm(length(x), sd = 3) + 3)  
ggplot(data = data.frame(x, y),  
       aes(x = x, y = y)) +  
  geom_point() +  
  geom_smooth(method = "lm")
```

SUBSECTION 2

10 Frontiers requires figures to be submitted individually, in the same order as they are referred to in the
11 manuscript. Figures will then be automatically embedded at the bottom of the submitted manuscript.
12 Kindly ensure that each table and figure is mentioned in the text and in numerical order. Permission must
13 be obtained for use of copyrighted material from other sources (including the web). Please note that it

14 is compulsory to follow figure instructions. Figures which are not according to the guidelines will cause
15 substantial delay during the production process.

1 DISCUSSION

DISCLOSURE/CONFLICT-OF-INTEREST STATEMENT

16 The authors declare that the research was conducted in the absence of any commercial or financial
17 relationships that could be construed as a potential conflict of interest.

AUTHOR CONTRIBUTIONS

18 The statement about the authors and contributors can be up to several sentences long, describing the tasks
19 of individual authors referred to by their initials and should be included at the end of the manuscript before
20 the References section.

2 SUPPLEMENTAL DATA

22 Supplementary Material should be uploaded separately on submission, if there are Supplementary Figures,
23 please include the caption in the same file as the figure. LaTeX Supplementary Material templates can be
24 found in the Frontiers LaTeX folder

3 REFERENCES

25 A reference list should be automatically created here. However it won't. Pandoc will place the list of
26 references at the end of the document instead. There are no convenient solution for now to force Pandoc
27 to do otherwise. The easiest way to get around this problem is to edit the LaTeX file created by Pandoc
28 before compiling it again using the traditional LaTeX commands.
